

# GeoFest 2021

The annual festival of events and activities for all

## 29th May to 29th August

**the Geopark Way**  
A 109 mile walking trail of  
Rocks, Landscape and Heritage

Bridgnorth to Gloucester,  
including the Abberley and Malvern Hills

The rocks along the Geopark Way tell amazing stories of continental collision, tropical seas, hot deserts, equatorial swamps and coastal lagoons, of vast ice sheets and polar deserts. Equally interesting are the building stones of the churches, bridges, town halls, cottages and a fine cathedral.

Why not walk one of the 17 sections.

For more information visit the  
Geopark Way Visitor Centre  
at Malvern Hills GeoCentre
