

# GeoFest 2021

The annual festival of events and activities for all

## 29th May to 29th August

There are many geology and landscape trails throughout the Geopark and all come with an explanation leaflet. Take some time this summer to explore some wonderful countryside, towns and interesting Geopark visitor sites. Most places are freely accessible.

Many of the leaflets are free and can be downloaded from the website; others can be purchased on-line or from the Malvern Hills GeoCentre.
